with Rear Seat Controls

A FUSION OF EXCITEMENT AND EFFICIENCY

Experience exhilarating performance with its 2.5L hybrid electric system—designed for seamless acceleration and efficiency. Feel the fusion of precision engineering and innovation with every drive.

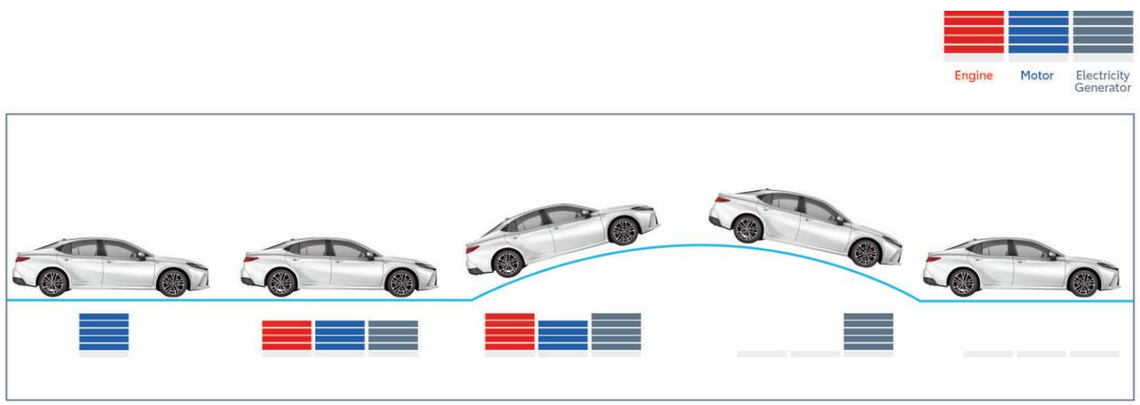

2.5L Hybrid Engine (A25A-FXS)

Hybrid Electric System

Toyota Hybrid System

Enjoy reduced emissions, fuel efficiency, and responsive acceleration with Toyota Hybrid Electric Vehicles. It combines the power of a gasoline engine and a self-charging, high-output electric motor for maximum fuel mileage, resulting in an optimum performance that delivers a smooth and sustainable driving experience.

A Toyota Hybrid Electric Vehicle driven at a constant speed in low- and mid-speed ranges will use the electric motor. Once you reach a faster normal speed, the gasoline engine activates to add power. Decelerating and stopping will recharge the electric motor's battery through Regenerative Braking.

INNOVATION AT YOUR FINGERTIPS

From seamless keyless entry and push-to-start functionality to its 12.3" multi-info display, every detail was designed for your comfort and convenience. Coupled with a 9-speaker JBL sound system, your driving soundtrack has never sounded better.

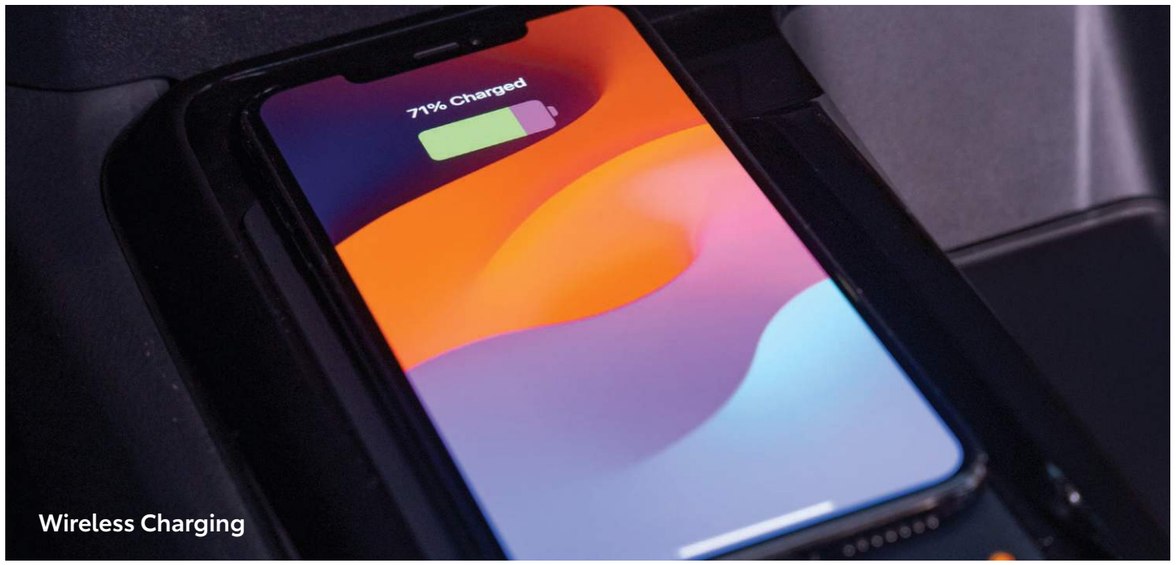

Smart Entry

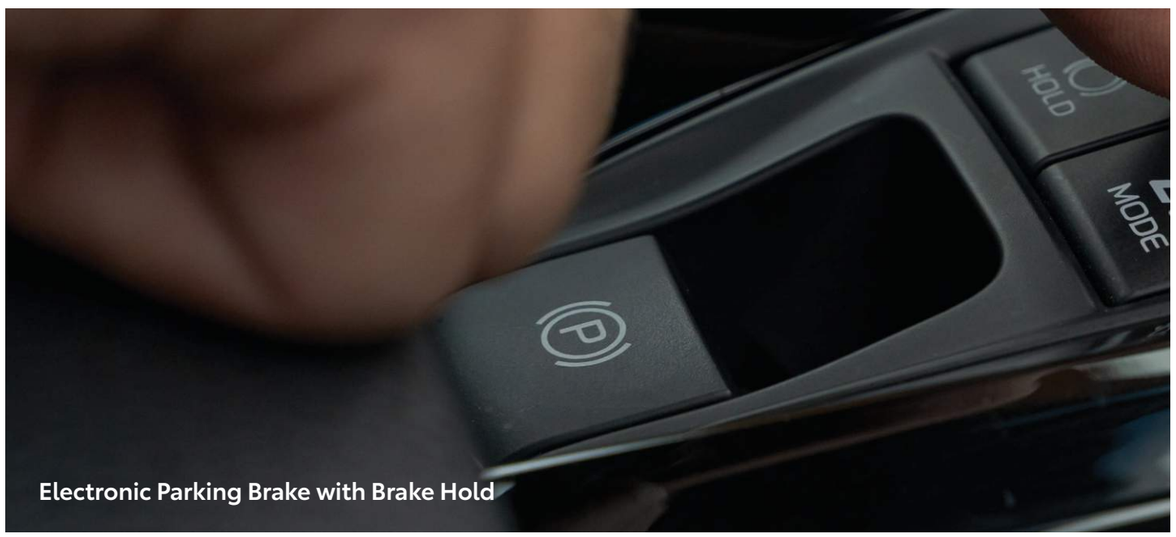

12.3" Infotainment System

Full TFT Multi-Info Display

Wireless Charging

Electronic Parking Brake with Brake Hold

ELECTRIFYING THE FUTURE OF DRIVING

The Camry HEV isn't just built for the present, it's a machine engineered for a more sustainable tomorrow. Its self-charging hybrid system delivers a seamless blend of power and efficiency, reducing emissions without compromising performance.

CONFIDENCE IN EVERY JOURNEY

Drive with peace of mind knowing that Toyota Safety Sense has your back. Equipped with Blind Spot Monitor, Safe Exit Assist, and a Panoramic View Monitor, the Camry offers all-around protection.
